Suite 100  
Lebanon, Tennessee 37087

## MEMORANDUM

**TO:** Builders and Plumbers

**FROM:** Danny Raines   
Chief Building Official

**DATE:** November 6, 2006

**RE:** Sewer Service Line Testing

Please be advised that effective December 1, 2006 sewer service lines will be required to be tested out to the six inch cleanout. The line can be tested either by water or air. Attached are the testing procedures as defined in the 1997 Standard Plumbing Code.

Also the six inch cleanout will be required to have a protective cover installed to protect the pipe from damage.

If you have any questions feel free to call the City of Lebanon Building Inspection Office at 444-3647 ext. 245.
